While the Federation reviews prize lists as submitted by Licensed Competitions, it is not responsible for ensuring all components of the prize list abides by the Federation rules. Competition Managers and Licensees are responsible for ensuring the compliance with all Federation rules. This proposed rule change, will clearly state that this responsibility is that of the competition. Any failure on the part of the Federation to note deficiencies does not later preclude the Federation from bringing forth a violation under the Regulatory process.

GR901 Requirements
See GR1212 for procedures regarding submitting prize lists to the Federation office. The prize list of every Licensed Competition must contain the following, for which the Competition Manager and/or Licensee is responsible. Any failure to note non-compliance with the following, does not prohibit the Federation from pursuing the rule violation through its regulatory process.
